Dear Mr. Beleutz:

**Re: Addition of Dust Collection System to Primary Crusher– Notice of Alteration**

Thank you for your Notice of Alteration (NoA) dated November 6, 2013 in which you proposed to install three baghouses and three collection tote bins at your Graymont Western Canada Inc. facility located in Faulkner, Manitoba. We understand that this installation will allow Graymont to control and mitigate fugitive dust emission at the primary limestone crushing plant.

Upon review of your alteration request, I have concluded that the environmental effects of the proposed alteration will be insignificant, and, therefore, in accordance with Section 14(2) of *The Environment Act* you are hereby authorized to carry out the proposed alteration as described in the November 6, 2013 Notice of Alteration.

If you have any questions regarding this matter, please contact Mr. Eshetu Beshada of this office at (204) 945-7023.

Yours truly,
