Gaetan Fontaine
CLC Chairman
Community Liaison Committee
Box 214
Letellier MB R0G 1C0

Dear Gaetan Fontaine:

**Re: Miller Environmental – Dangerous Goods Handling and Transportation Act
Licence No. 58 HW S2 RRRR – Notice of Alteration to Construct Leachate Pond**

Receipt of the Community Liaison Committee's (CLC) acceptance letter to Miller Environmental's Notice of Alteration request to construct a new leachate pond proposed to be located on portions of NW 2-3-1 EPM within the Rural Municipality of Montcalm is hereby acknowledged.

The department representatives have discussed CLC's recommendation to carry out leachate testing by a third party accredited laboratory on a quarterly basis. As there is no intent of discharging leachate into the environment, other than evaporation and as leachate characteristics are not anticipated to change on a quarterly basis, department representatives concluded that the frequency of testing be conducted on an annual basis. The branch is finalizing a notice of alteration approval with the requirement to conduct annual leachate testing and submit an annual monitoring report.

Should you have any questions concerning the foregoing, please contact Edwin Yazon, Environmental Engineer, Environmental Approvals Branch, at Edwin.Yazon@gov.mb.ca or 431-335-2554.

Yours sincerely,
