CLIENT FILE NO.: 3516.00

December 2, 2015

Randi Kozak
Crop Production Services (Canada) Inc.
Unit E – 759 First Street
Brandon MB R7A 2X5

Dear Ms. Kozak:

Enclosed is a revised **Environment Act Licence No. 1618 RRR** dated December 2, 2015 issued to **Crop Production Services (Canada) Inc.** for the continued operation and maintenance of the Development being crop protection products warehouse, bulk granular fertilizer blending, storage and distribution facilities including all related activities, located at Lots 1, 2, and 3 of Block 1, Plan 33724 WLTO, on R.L. of 46-22-2 EPM, in the Municipality of Bifrost-Riverton, in accordance with the Notice of Alterations (NoA's) filed on November 25, 2014 and October 26, 2015.

The licence has been revised to update the legal name of the site from Viterra to Crop Production Services (Canada) Inc., addition of the granular fertilizer aspects of the development as operated by legacy companies, and increase the current outload rate for the dry fertilizer plant.

In addition to the enclosed Licence requirements, please be informed that all other applicable federal, provincial and municipal regulations and by-laws must be complied with. A Notice of Alteration must be filed with the Director for approval prior to any alteration to the Development as licensed.

If you have any questions on this matter, please contact Ms. Krystal Penner of this office at (204) 945-7107. For any operational issues, please contact the Regional Supervisor Mike Baert at (204) 782-9104.

Pursuant to Section 27 of the *Environment Act*, this licensing decision may be appealed by any person who is affected by the issuance of this Licence to the Minister of Conservation and Water Stewardship within 30 days of the date of the Licence.

Yours truly,

“original signed by”

Tracey Braun, M.Sc.
Director
Environment Act

LICENCE

Licence No. / Licence n°	<u>1618 RRR</u>
Issue Date / Date de délivrance	<u>January 7, 1993</u>
Revised:	<u>August 18, 2004</u>
Revised:	<u>May 8, 2008</u>
Revised:	<u>December 2, 2015</u>

In accordance with *The Environment Act* (C.C.S.M. c. E125) /
Conformément à la *Loi sur l'environnement* (C.P.L.M. c. E125)

Pursuant to Section 10(1) and 14(2) / Conformément au Paragraphe 10(1) et 14(2)

THIS LICENCE IS ISSUED TO: / CETTE LICENCE EST DONNÉE À:

CROP PRODUCTION SERVICES (CANADA) INC.;
"the Licensee"

for the continued operation of the Development being a crop protection products storage warehouse and handling facility, bulk granular fertilizer blending, storage and distribution facilities, including all related activities, located at Lots 1, 2, and 3 of Block 1, Plan 33724 WLTO, on R.L. of 46-22-2 EPM, in the Municipality of Bifrost-Riverton, and in accordance with the Proposal filed under *The Environment Act* on September 15, 1992, subsequent information provided on November 25, 2014 and subject to the following specifications, limits, terms and conditions.

DEFINITIONS

In this licence,

"**accredited laboratory**" means an analytical facility accredited by the Standard Council of Canada (SCC), or accredited by another accrediting agency recognized by Manitoba Conservation and Water Stewardship to be equivalent to the SCC, or be able to demonstrate, upon request, that it has the quality assurance/quality control (QA/QC) procedures in place equivalent to accreditation based on the international standard ISO/IEC 17025, or otherwise approved by the Director;

"**agricultural warehouse**" means any building(s) where pest control products are stored for either commercial or retail purposes;

"affected area" means a geographical area, excluding the property of the Development;

"chemical" includes, but is not limited to petroleum products, fertilizers and pest control products;

"dangerous goods" means any product, substance or organism designated in the regulations, or conforming with the criteria set out in the regulations, or in any regulation adopted in accordance with *The Dangerous Goods Handling and Transportation Act*, and includes hazardous wastes;

"Director" means an employee so designated pursuant to *The Environment Act*;

"Environment Officer" means an employee so designated pursuant to *The Environment Act*;

"noise nuisance" means an unwanted sound, in an affected area, which is annoying, troublesome, or disagreeable to a person:

- a) residing in an affected area;
- b) working in an affected area; or
- c) present at a location in an affected area which is normally open to members of the public;

if the unwanted sound

- d) is the subject of at least 5 written complaints, received by the Director in a form satisfactory to the Director and within a 90-day period, from 5 different persons falling within clauses a), b), or c), who do not live in the same household; or
- e) is the subject of at least one written complaint, received by the Director in a form satisfactory to the Director, from a person falling within clauses a), b) or c) and the Director is of the opinion that if the noise had occurred in a more densely populated area there would have been at least 5 written complaints received within a 90-day period, from 5 different persons who do not live in the same household;

"odour nuisance" means a continuous or repeated odour, smell or aroma, in an affected area, which is offensive, annoying, troublesome, annoying, unpleasant or disagreeable to a person:

- a) residing in an affected area;
- b) working in an affected area; or
- c) present at a location in an affected area which is normally open to members of the public;

if the odour, smell or aroma

- d) is the subject of at least 5 written complaints, received by the Director in a form satisfactory to the Director and within a 90-day period, from 5 different persons falling within clauses a), b), or c), who do not live in the same household; or
- e) is the subject of at least one written complaint, received by the Director in a form satisfactory to the Director, from a person falling within clauses a), b), or c) and the Director is of the opinion that if the unwanted odour, smell or aroma had occurred in a more densely populated area there would have been at least 5 written complaints received within a 90-day period from 5 different persons who do not live in the same household;

"pest control product" means any product as defined in the federal *Pest Control Products Act*;

"post-closure plan" means a plan indicating the actions to be taken for the care, maintenance, and monitoring of the Development after closure, that will prevent, mitigate, or minimize the threat to public health and the environment;

"secondary containment area" means, for an Agrichemical Warehouse (or crop protection products warehouse), an area designed and constructed to contain any liquids, including chemicals and fire water, resulting from a significant event such as a fire, and prevents the release of pollutants beyond the containment area; and

"sewage" means household and commercial wastewater that contains human waste.

TERMS AND CONDITIONS

Compliance

1. The Licencee shall adhere to the commitments made in the Proposal filed on February 9, 1994, Notice of Alteration dated November 25, 2014, and any additional supporting information filed in association with the Proposals during construction, operation and reclamation of the Development.

Sampling and Analysis

2. The Licencee shall, unless otherwise specified in this Licence:
 - a) carry out all preservations and analyses on liquid samples in accordance with the methods prescribed in the most current edition of Standard Methods for the Examination of Water and Wastewater or in accordance with equivalent preservation and analytical methodologies approved by the Director;
 - b) carry out all sampling of, and preservation and analyses on, soil and air samples in accordance with methodologies approved by the Director;
 - c) have all analytical determinations undertaken by an accredited laboratory; and
 - d) report the results to the Director, in writing and in an electronic format acceptable to the Director, within 60 days of the samples being taken.

Additional Reporting

3. The Licencee shall, in addition to any of the following specifications, limits, terms and conditions specified in this Licence, upon the request of the Director:
 - a) sample, monitor, analyze or investigate specific areas of concern regarding any segment, component or aspect of pollutant storage, containment, treatment, handling, disposal or emission systems, for such pollutants or ambient quality, aquatic toxicity, leachate characteristics and discharge emission rates, for such duration and at such frequencies as may be specified;

- b) determine the environmental impact associated with the release of any pollutants from the Development;
- c) conduct specific investigations in response to the data gathered during environmental monitoring programs; or
- d) provide the Director, within such time as may be specified, with such reports, drawings, specifications, analytical data, flow rate measurements and such other information as may from time to time be requested.

Reporting Format

4. The Licencee shall submit all information required to be provided to the Director or Environment Officer under this Licence, in writing, in such form (including number of copies) and of such content as may be required by the Director or Environment Officer, and each submission shall be clearly labelled with the Licence Number and Client File Number associated with this Licence.

Odour

5. The Licencee shall not cause or permit an odour nuisance to be created as a result of the construction, operation or alteration of the Development, and shall take such steps as the Director may require to eliminate or mitigate an odour nuisance.

Noise

6. The Licencee shall not cause or permit a noise nuisance to be created as a result of the construction, operation or alteration of the Development, and shall take such steps as the Director may require to eliminate or mitigate a noise nuisance.

SPECIFICATIONS, LIMITS AND CONDITIONS

Additional Permits

7. The Licencee shall obtain all necessary municipal, provincial and federal permits and approvals for construction of relevant components of the Development prior to commencement of construction.

Maintenance

8. The Licencee shall, at all times during the operation of the Development, implement a high standard of equipment maintenance and operational practices.

Recycling

9. The Licencee shall reduce the production and dissemination of wastes by initiating and maintaining waste reduction and waste recycling programs.

Environmental Accident Reporting

10. The Licencee shall, in the case of physical or mechanical equipment breakdown or process upset where such breakdown or process upset results or may result in the release of a pollutant in an amount or concentration, or at a level or rate of release, that causes or may cause a significant adverse effect, immediately report the event by calling the 24-hour environmental accident reporting line at (204) 944-4888 (toll-free 1-855-944-4888). The report shall indicate the nature of the event, the time and estimated duration of the event and the reason for the event.
11. The Licencee shall, following the reporting of an event pursuant to Clause 10,
 - a) identify the repairs required to the mechanical equipment;
 - b) undertake all repairs to minimize unauthorized discharges of a pollutant;
 - c) complete the repairs in accordance with any written instructions of the Director; and
 - d) submit a report to the Director about the causes of breakdown and measures taken, within one week of the repairs being done.

Granular Fertilizer

12. The Licencee shall surface, grade, dyke and/or curb all areas where granular fertilizer is stored, loaded, blended, transferred or otherwise handled with concrete or in a manner and using materials approved by the Director, such that all product spillage and contaminated run-off water from these areas is contained.

Pest Control Products

13. The Licencee shall meet or exceed the current guidelines for Agrichemical Warehousing Standards Association (AWSA) certification regarding the handling and storage of pest control products.
14. The Licencee shall design and construct the secondary containment area for agrichemical warehouses such that it is protected with a minimum of 45 centimetres of compacted clay material or other materials approved by the Director.
15. The Licencee shall inspect the surface of the secondary containment area semiannually for desiccation cracks, so that the secondary containment area's continuity is maintained.
16. The Licencee shall construct and maintain concrete floors with a minimum 10 centimetres retention curbing around the perimeter of all agrichemical warehouses so as to prevent spilled liquids from leaking into the soil.

17. The Licencee shall install and maintain, for all agrichemical warehouses, an automatic system for fire detection and security.
18. The Licencee shall create and maintain current duplicate inventories of all pest control products stored at the Development, with one copy stored at the premises of the Development, and the other copy stored at a location off-site from the Development.
19. The Licencee shall store only pest control products registered under the federal *Pest Control Products Act* at the Development.
20. The Licencee shall not mix pest control products or fill or re-fill pest control product containers at the Development.
21. The Licencee shall locate pest control products storage structures a minimum distance of:
 - a) 100 metres from any property zoned residential; and
 - b) 100 metres from single residencesunless a written consent form is obtained from the owner(s) and approved by the Director.

Chemical Storage and Spill Containment

22. The Licencee shall ensure fuel storage containers incorporate secondary containment satisfactory to an Environment Officer.
23. The Licencee shall comply with all the applicable requirements of:
 - a) Manitoba Regulation 188/2001, or any future amendment thereof, respecting the *Storage and Handling of Petroleum Products and Allied Products*;
 - b) *The Dangerous Goods Handling and Transportation Act*, and regulations issued thereunder, respecting the handling, transport, storage and disposal of any dangerous goods brought on to or generated at the Development; and
 - c) the Office of the Fire Commissioner – Province of Manitoba.
24. The Licencee shall provide containment for all vessels containing chemicals in each area of the Development where the chemicals are stored, loaded, transferred, used or otherwise handled, in compliance with the National Fire Code of Canada (2010), or any future amendment thereof, such that any product leakage or spillage and any contaminated liquid generated is contained within the Development and contamination of groundwater is prevented.
25. The Licencee shall, in a manner approved by the Director, remove and dispose of all spilled dangerous goods.

Emergency Response Planning

26. The Licencee shall prepare and maintain an emergency response contingency plan in accordance with the Canadian Centre for Occupational Health and Safety "Emergency

Response Planning Guide” or other emergency planning document acceptable to the Director.

Closure and Post Closure

27. Within one year prior to imminent closure of the Development, the Licencee shall submit, for the approval of the Director, a formal detailed closure and post closure plan for the Development.
28. The Licencee shall implement and maintain the approved closure and post closure plan.

REVIEW AND REVOCATION

- A. This Licence replaces Environment Act Licence No. 1618 RR which is now hereby rescinded.
- B. If construction of the Development is not commenced within three years of the date of this Licence, the Licence is revoked.
- C. If, in the opinion of the Director, the Licencee has exceeded or is exceeding or has or is failing to meet the specifications, limits, terms, or conditions set out in this Licence, the Director may, temporarily or permanently, revoke this Licence.
- D. If, in the opinion of the Director, new evidence warrants a change in the specifications, limits, terms, or conditions of this Licence, the Director may require the filing of a new proposal pursuant to Section 10 of *The Environment Act*.
