Dear Mr. Cable:

Re: Draft Guidelines for the Preparation of an Effects Assessment for the Louisiana Pacific Canada Ltd. Twenty Year Forest Management Plan

The federal Technical Advisory Committee (TAC) has completed its review of the "Draft Guidelines for the Preparation of an Effects Assessment for the Louisiana Pacific Canada Ltd. Twenty Year Forest Management Plan". Comments on the draft guidelines from the federal TAC are attached in a letter from the Canadian Environmental Assessment Agency (CEAA) dated August 23, 2010.

The letter indicates that several federal departments have requested to review the environmental impact statement (EIS) for the Louisiana Pacific Canada Ltd. twenty year Forest Management Plan when it is available.

As per the Canada-Manitoba Agreement on Environmental Assessment Cooperation, copies of the EIS will be forwarded by Manitoba Conservation to CEAA for review by interested federal departments when the EIS is submitted to Manitoba Conservation for review under the Environment Act.

If you have any questions, you may contact Elise Dagdick at elise.dagdick@gov.mb.ca or at 945-8173.

Yours truly,

Tracey Braun, M. Sc.
Director
Environmental Assessment and Licensing Branch

Dear Ms. Dagdick:

Subject: Louisiana Pacific Canada Ltd. Twenty Year Forest Management Plan

I have completed a survey of federal departments with respect to determining interest in the project noted above. I can confirm that the "Guidelines for the Preparation of an Environmental Impact Statement" for the project circulated by your office on June 25, 2010, has been shared with all federal departments with a potential interest. Based on the responses to the survey the application of the *Canadian Environmental Assessment Act* (the Act) by a federal authority may be required for this project.

Fisheries and Oceans Canada and Transport Canada have both indicated that they require additional information with respect to watercourse crossings and have requested to review the environmental impact statement when it is available. Indian and Northern Affairs Canada has also expressed an interest in review of the report when it is available.

A list of the appropriate federal contacts is attached. Please note that the project information was reviewed by Environment Canada as part of the federal coordination process.

Thank you for your effort to ensure coordination and close communication between provincial and federal levels of government. If I can be of further assistance, please feel free to contact me at (204) 984-0427 or by e-mail at: kristina.farmer@ceaa-acee.gc.ca.

Sincerely,

Kristina Farmer
Section Leader

Encl.

Response Requested by August 6, 2010

In accordance with information-sharing requirements of the *Canada-Manitoba Agreement on Environmental Assessment Cooperation* (the Agreement), the Environmental Assessment and Licensing Branch, Manitoba Conservation (MC) has provided a copy of Guidelines for the Preparation of an EIS for the project referred to above. The proposal is currently being considered by MC, pursuant to *The Environment Act*. Please indicate whether your department would like to review the EIS when it is available.

Please refer to your copy of the proposal documents for your departmental review. Please indicate (by checking the appropriate box) whether or not your department/agency:

- has, or anticipates, a responsibility under Section 5(1) of CEAA to assess the environmental effects of the project (i.e. are an RA). _____ Yes
_____ No
 If yes, indicate trigger: _____
- to determine whether, within your departmental mandate, you would be able to offer specialist advice to a Responsible Authority if requested (subsection 12(3) of the Act); and _____ Yes _____ No
 Specify as appropriate:

- requires additional information to make a determination referred to in a) or b) above. Yes _____ No
 If yes, please describe additional information requirements or forward a request within 10 days after making the determination:
details of all proposed crossings (location, watercourse, type of crossing)
- in the absence of a federal trigger, has an interest in the project related to its departmental mandate, and would like to participate in the provincial review (Clause 38(1) of the Agreement). Yes
_____ No
 If yes, please describe requested involvement i.e. comments for the provincial Guidelines, review of EIS, etc.
review of the EIS

Please respond by August 6, 2010. If your response to any of the above determinations is positive, please provide the name and means of contact for a departmental representative for the review.

Hello,

I am checking to see if you are able to review the attached report in the near future. Construction of the pipeline is likely to begin in a week or two. I apologize for the poor quality of the scanned document; it had to be scanned because the link provided below no longer exists.

Hello Gordon,

A Heritage Resources Impact Assessment was completed for the EOG Waskada Pipeline project. A link to the report is available at [6764m_HRIA_edited.pdf](#). Could you please review the report and indicate whether the proposed mitigation measures for encountering heritage resources are acceptable or if there should be any conditions to licensing in addition to the mitigation measures?

The Heritage Resource Discovery Contingency Plan outlined in the project Environment Act Proposal is provided below for your information.

Please feel free to contact me if you have any questions.
