RE: MB Hydro – Bipole III Transmission Project – Supplemental Information
Client File No 5433.00

Dear Ms. Braun:

MIT has reviewed the supplemental information for the Bipole III Transmission Project, as circulated on August 7, 2012, and we have no additional concerns.

Thank you very much for providing us the opportunity to provide further comment on the supplemental information.

Sincerely,

Ryan Coulter, M. Sc., P. Eng.
Manager of Environmental Services

Subject: Re: 5433.00 Manitoba Hydro Bipole III EIS, Supplemental Materials, July 31, 2012

Ms. Dagdick,

I reviewed the above noted supplemental materials filed by Manitoba Hydro in response to concerns raised with respect to impacts on wildlife and socio-economic impacts from the new transmission line. Potential concerns of Office of Drinking Water respecting impacts on raw water sources for public water systems from the proposed Bipole III line were noted in our response to the original EIS and we do not see any further cause for concern respecting safety of public water systems arising out of the Supplemental Materials.

I trust this is satisfactory, but if you have any questions, please call.

Regards,

James Stibbard P. Eng.
