Hello Chris,

I am writing in response to your email dated June 26, 2024, in which you requested authorization to use cell 34 of the Brady Road Landfill. In your email, you provided details of the repairs carried out on the damaged portion of the liner following the fire incident, as well as a QA/QC report dated June 20, 2024, prepared by Titan Environmental Containment for the repair of the HDPE geomembrane liner in cell 34.

Upon reviewing the QA/QC report, I can confirm that the requirements of clause 33 of Environment Act Licence No. 3081 R (licence) have been met. Therefore, in accordance with clause 35 of the licence, I am granting authorization for the covering and usage of cell 34, subject to the limits, terms, and conditions outlined in the licence.

If you have any further questions or concerns, please do not hesitate to contact me.

Thank you.
