

SUMMARY OF COMMENTS/RECOMMENDATIONS

PROPOSER: Juliana Manufacturing Limited
PROPOSAL NAME: Juliana Pet Food Manufacturing Facility
CLASS OF DEVELOPMENT: 1
TYPE OF DEVELOPMENT: Manufacturing Facility
CLIENT FILE NO.: 5753.00

OVERVIEW:

On November 12, 2014, the Department received a Proposal from Dillon Consulting on behalf of Juliana Manufacturing Ltd. for the operation of a pet food manufacturing facility located at 355 Transport Road in the R.M. of Springfield.

The proposed change to the pet food manufacturing facility is the installation of a wastewater pre-treatment system. All wastewater effluent from the facility is discharged to an on-site wastewater holding tank and truck hauled to the R.M. of Springfield wastewater treatment lagoon.

The Department, on January 22, 2015, placed copies of the Proposal in the Public Registries located at the Legislative Library, the Millennium Public Library and the Online Registry at <http://www.gov.mb.ca/conservation/eal/registries/index.html>. Copies of the Proposal were also provided to the Technical Advisory Committee (TAC) members. The Department placed a public notification of the Proposal in the Winnipeg Free Press on Saturday, January 24, 2015. The newspaper and TAC notifications invited responses until February 24, 2015.

COMMENTS FROM THE PUBLIC:

No comments were received from the public.

COMMENTS FROM THE TECHNICAL ADVISORY COMMITTEE:

Conservation and Water Stewardship – Water Control Works and Drainage Licensing

- *No concerns*

Conservation and Water Stewardship – Environmental Compliance and Enforcement

- *We suggest that the proponent submit a Hazardous Waste Generator Registration application and an Emergency Response Plan for their operation, including stipulation that the Environmental Emergency Response Line (1-855-944-4888) be notified immediately in the event of fire, spill, or any other potential environmental incident.*

Disposition:

- In a letter dated March 13, 2015, the proponent was informed that they are required to submit a Hazardous Waste Generator Registration application.

- Clause 4 of the draft Licence requires the proponent to immediately contact the Environmental Emergency Response Line in the event of fire, spill, or any other potential environmental incident.
- Clause 7 of the draft Licence requires the proponent to prepare and maintain an emergency response plan for the development.

Conservation and Water Stewardship – Lands Branch

- *No concerns.*

Conservation and Water Stewardship – Office of Drinking Water

- *No concerns*

Conservation and Water Stewardship – Air Quality

- *Based on the provided information, it is expected that there will be no significant impact on air quality due to this facility.*
- *Air Quality Section suggests the odour nuisance clause be included in the Licence.*

Disposition:

The odour nuisance clause is included in the draft Licence (Clause 20).

Conservation and Water Stewardship – Parks and Natural Areas Branch

- *No comments or concerns.*

Conservation and Water Stewardship – Water Use Licensing

- *Based on what we learned from reading the EAP the current operation requires a Water Rights Use Licence.*

Disposition:

In a letter dated March 13, 2015, the proponent was informed that a Water Rights Use Licence was required and appropriate contact information was given to initiate the process and obtain a waster rights use licence.

Infrastructure and Transportation – Highway Planning and Design Branch

- *No concerns.*

PUBLIC HEARING:

No public concerns were received during the public review period of the environmental assessment and licensing process. A public hearing was not requested by the public and is not recommended for this Development.

CROWN-ABORIGINAL CONSULTATION:

The Government of Manitoba recognizes it has a duty to consult in a meaningful way with First Nations, Métis communities and other Aboriginal communities when any proposed provincial

law, regulation, decision or action may infringe upon or adversely affect the exercise of a treaty or Aboriginal right of that First Nation, Métis community or other Aboriginal community.

Aboriginal consultation was not required for the proposed operation as the facility is an existing Development currently in operation on privately owned land.

RECOMMENDATION:

The Proponent should be issued a Licence for the operation of the Development in accordance with the specifications, terms and conditions of the attached draft Licence. Enforcement of the Licence should be assigned to the Environmental Compliance and Enforcement Branch upon issuance of the Licence.
