Dear Mr. Rathamano:

**RE: DGHT Application Great Canadian Oil Change File: 5754.00 – Great Canadian Oil Change 827 18<sup>th</sup> Street, Brandon, Manitoba.**

---

I have reviewed the above referenced proposal and note the following information for your review and consideration concerning the proposed Dangerous Goods Handling and Transportation (DGHT) application. The location of the proposed DGHT in the City of Brandon, which is a member of the Brandon and Area Planning District, dictates that all development is therefore subject to the policies of the district development plan in effect and may be further regulated in the City of Brandon Zoning By-law.

**BRANDON AND AREA PLANNING DISTRICT DEVELOPMENT PLAN BY-LAW NO. 95/01/12**  
According to the Brandon and Area Planning District Development Plan, the lands on which the wastewater lagoon will reside are designated as “Commercial.”

**CITY OF BRANDON, ZONING BY-LAW NO. 6642**  
According to the City of Brandon Zoning By-law, lands on which the Great Canadian Oil Change resides are zoned “CAR” – “Commercial Arterial Zone.” Automotive service is a conditional use in this zone.

**CONCLUDING REMARKS:**

I have no concerns with the proposed application as the current land use is generally consistent with the policies of the Brandon and Area Planning District Development Plan and the Brandon Zoning By-law No. 6642.

Should you have any questions regarding my comments, please call.
