Rob,

As per a conversation between you and Kerri B., we are requesting clarification / approval for the direct haul and land application of City biosolids in the spring of 2021 based on the following information:

- Cooperating farm producer: Fred Wiebe
- Land: SE05-10-01EPM
- Area: ~ 45 ac
- Completed at the same application rate as partially completed in the fall of 2020 (12 dry tonnes/ha, 46 wt/ha)
- Soil samples obtained in the fall of 2020 would be the basis of this program
- Direct haul over a week to achieve sufficient volume
- Land applied daily
- Worked in within 48hours

The request is to complete this land application event under the NOA as applied in 2020 as this is residual lands from the fall of 2020.

Should you have any further questions or concerns, please contact me directly at your convenience.

Darren
