A Duty and Privilege Every True Canadian Should Take Advantage of—Hasten the Bringing About Of a Lasting Peace

Owing to the fact that all the churches of the city are closed by order of health authorities no services are possible, and the various pastors of the city have taken advantage of the offer of the Daily Graphic to place before their congregations and appeal for the Victory Loan.

While the ban on church services continues the columns of the Daily Graphic will be open every Saturday to the clergy in which they can convey a message to their people.

"Your Money or your Life."

By Rev. D. T. Parker, Rector of St. Mary's Church

A little more than four years ago we assembled to see the first contingent from our city leave for the seat of war. It was little what we then realized what trials they and

speedily follow. We cheered them by saying that those who could not go would stand behind them to the "last man and the last dollar." Shall we hesitate today to make good our promise? They have done their part. Then have done it well. Through four long years of bitterest toil, privation and death they have gone from victory to victory. More than once have they snatched victory from the very jaws of defeat. As a result the end of the war seems to be very near and the good report of Canada has spread abroad through the world.

The Canadian soldier is reported to be the best and most resourceful fighting man amongst all the millions of these mighty armies.

We must remember that not a few of these brave heroes have come from our own city. Our hearts glow with a holy pride in them for

Support the Victory Loan

By Rev. Father Rheume, St. John's R. C. Church

A duty of patriotism, a duty of citizenship, and a duty demanded by public spirit and dictated by intelligent self-interest should animate the soul of every loyal Canadian at the call of the government to place our private means and private credit at the disposal of our country at this time of our country's greatest need.

The lawfully constituted authorities of our country chosen by ourselves have up to the present time carried out our expressed wish in bearing our full share of the War, which is now virtually won; they called on the young and vigorous manhood of Canada to fight and die if need be for the great cause of humanity; and Canada's young men nobly responded to the call of duty

and broken bodies and anguish of heart that the German war lords have forced upon humanity there can be no settlement but by an Unconditional Surrender. It is not wise to resort to invective comparisons at this time, but certainly the Canadian boys have acquitted themselves like men "Over There". They have been among the most heroic of the war from the beginning.

It remains for us at home to do our part in this struggle. None of us want to be slackers. Every one must do his best in purchasing Victory Bonds. This is the most critical period of the war. Every Canadian Citizen must be aroused. The peace of the world for generations to come depends upon what we do now. Victory Loan is the Hope of the World!

A Glorious Privilege

By Rev. P. E. Scott, Knox Presbyterian Church

The passing of war is the desire of all Christians. The message of the prophets shall beat their swords into plowshares and their spears into pruning hooks, and learn of peace. Such is the vision of the Age—the age of Peace has not ceased. Our country has been severely defeated but much remains to be done that wrong shall be righted. War is the use of force to vindicate righteousness, to defend the oppressed and to make

FLAGSHIP OF AUSTRIAN FLEET IS SUNK BY ALLIES

ITALY'S WAR STRATEGY AND HER TERRITORIAL ASPIRATIONS

WAR SUMMARY 1,552nd Day of the War

From Holland to Valenciennes—French and American troops entered the third day of their attack between the Ley and the Scheldt, on a front of about 15 miles. They have captured Audenaerde, Dierga, Nassewe and other villages, advanced three miles and taken more than 1,000 prisoners. The Belgians are pushing their positions along the Derivation canal, west of Ghent.

THE most revealing Italy's war strategy and her territorial aspirations. It should Austria collapse before Germany, Italy would have a clear road to Germany's back door. The black portions of the map show the Italian "pretensions," or the part of Italian territory that has been under Austrian domination for many years, and which it has been the constant dream of Italian statesmen to liberate from the hated yoke. The crucial factor in Italy's strategy is the Italian language spoken almost exclusively and the Italian population is predominant.

They have conferred with each other, and they are ready to enter the field at the coming municipal elections and elect men whom they know will work and work real hard for a bigger and better city. But they claim that they would like to make a clean sweep, that is, they would like to have an entirely new civic body, so that none of the old timber may remain to hamper them. They have a candidate for mayor whom they believe is the best man available in the city, and they have a long list of men qualified to sit at the council board who would fill the bill. These men, however, will not allow their names to be used unless there is a change. SITUATION MUCH IMPROVED

SIX CASES YESTERDAY One Of These From Out Of City—Medical Health Officer Asks People To Be Patient

The situation in Portage in regard to the Spanish Flu is much improved in the past forty-eight hours, that is if the number of cases reported is anything to go by. By this people must not infer that the epidemic is on the wane, neither is it stated officially that the apex has been reached, but it is encouraging to the authorities to know that a fewer number of cases are being found. This is undoubtedly due to the readiness of the people to carry out the instructions of the health officer, and in speaking of the matter this morning Dr. Cowan stated that he would say that the people keep at it, pay attention to everything and for the sake of your neighbor don't be in too big a hurry to get out of quarantine.

Only six cases were reported yesterday. One of these was brought to the hospital from the country, so there were only 5 cases reported from the city. On Saturday there were 28 cases reported, fourteen in the city and a like number at the Training School. This makes a total of 213 cases that have thus far been reported, 150 in the city, 57 at the Training School and 6 at the home. Releases from quarantine cases first reported are now being reported, five being this morning.

The following instructions for the care of Flu victims, should be put out and preserved in every household, owing to the scarcity of nurses and the shortage of hospital accommodation:—
